APPENDIX I

[Vide answer to Starred Question No. 2165, asked by Sri V. K. Kothandaraman (on behalf of Sri M. Kalyanasundaram), at the meeting of the Legislative Assembly held on 8th December 1961, page 182, supra.]

The following new milk schemes are proposed to be started in the cities of Tiruchirappalli, Coimbatore and Madurai under the Third Five-Year Plan.

(i) Scheme for the installation of a pasteurisation plant at Tiruchirappalli by Tiruchi-Srirangam Co-operative Milk Supply Union.

(ii) Scheme for the establishment of a Butter-*cum*-Milk Powder Factory at Coimbatore by the Coimbatore Co-operative Milk Supply Union.

(iii) Scheme for the installation of a pasteurisation plant at Madurai by the Madurai-Co-operative Milk Supply Union.

(iv) Scheme for evacuation of milch animals from Madurai Town.

2. The scheme for the installation of a pasteurisation plant at Tiruchirappalli by the Tiruchi-Srirangam Co-operative Milk Supply Union is estimated to cost Rs. 13·07 lakhs. Of this, a sum of Rs. 70,000 is intended for the purchase of land for location of the Central Dairy and two chilling centres, the former costing Rs. 50,000 and the latter costing Rs. 10,000 each. This amount of Rs. 70,000 will be met by the State Government by way of loan to the Milk Supply Union. A sum of Rs. 3,90,000 is required for construction of buildings, etc., for the Dairy as well as establishment of chilling centres and power supply including transformer connections, etc. The equipment required is eastimated to cost Rs. 6·40 lakhs. The cost of collection and distribution centres works out to Rs. 1·70 lakhs. The total cost of Rs. 13·07 lakhs includes the cost of technical staff which, as proposed by the Registrar of Co-operative Societies, will be met by the State Government for the first three years of the scheme and the other staff required for the working of the scheme which is estimated to cost Rs. 1,19,040 will be paid for by the Union out of its own funds and no Government assistance is necessary for this. Under the scheme, the handling capacity of the Tiruchi-Srirangam Co-operative Milk Supply Union is proposed to be increased to 20,000 lb. to 30,000 lb. per day in due course. At the Central Dairy at Tiruchi where necessary equipments and machinery will be set up, receiving, testing, processing, bottling and distribution of milk after holding it in cold storage will be done. The required quantity of milk is proposed to be collected from the feeder societies which are located in different directions within a radius of about 40 miles from Tiruchirappalli.

8th December 1961]

3. The Scheme for the establishment of a Butter-*cum*-Milk Powder Factory at Coimbatore by the Coimbatore Co-operative Milk Supply Union is estimated to cost Rs. 30 lakhs inclusive of the cost of land amounting to Rs. 2 lakhs. The object of the scheme is to convert the surplus milk during the rush season into by-products such as butter and milk powder to avoid loss arising out of the accumulation of surplus milk.

4. The scheme for the installation of a pasteurisation plant at Madurai by the Madurai Co-operative Milk Suply Union, as already drawn up, is estimated to cost Rs. 48 lakhs. Out of this amount of Rs. 48 lakhs, a sum of Rs. 8 lakhs will be the contribution by the Madurai Co-operative Milk Supply Union by way of supply of milk to school children and industrial workers at subsided rates over a period of 10 years. The Madurai Co-operative Milk Supply Union will distribute milk worth Rs. 24 lakhs to the above priority consumers during a period of 10 years and collect only a sum of Rs. 16 lakhs therefor. A sum of Rs. 1 lakh representing the cost of the land will be met by the State Government by way of loan to the Milk Supply Union. Assistance from the UNICFF to the extent of Rs. 16 lakhs by way of foreign machinery is expected to be made available under the scheme. The balance of Rs. 23 lakhs is proposed to be met by the Government of India as loan and subsidy in the ratio of 40 : 60.

5. The scheme for the evacuation of milch animals from Madurai town and their colonisation in the outskirts of the town is estimated to cost Rs. 9 lakhs consisting of Rs. 4 lakhs towards the cost of land and Rs. 5 lakhs towards the construction of cattle sheds, residential quarters, etc. The object of the scheme is to remove the cattle from the congested parts of the town and colonise them in the outskirts of the town and thereby improve the health and sanitary conditions of the town.

6. No new Milk Supply Scheme is proposed to be taken up in Salem town in the Third Five-Year Plan.

APPENDIX II

[Vide answer to Starred Question No. 2187 asked by Sri V. K. Kothandaraman (on behalf of Sri M. Kalyanasundaram) at the meeting of the Legislative Assembly held on 8th December 1961, page 194 supra.]

A.—On 19th June 1961, the Tamil Nad Taxi and Auto-Drivers Union, Madras presented a memorandum to the Commissioner of Police, Madras containing certain demands. In their letter, dated
